

## GP-1A Grinder Polisher

### Feature

- ◆ Practical FRP shell, cast aluminum chassis, all stainless steel standard parts
- ◆ Using the schneider control system, safe and reliable
- ◆ Three-stage speed mode and stepless speed control
- ◆ Automatic cleaning function of drainage disc can effectively clean the grinding residue
- ◆ Rotation direction of working disc can be chosen
- ◆ Follow-up with upgrade function

### Technical Parameter

| Item            | GP-1A                     | Note          |
|-----------------|---------------------------|---------------|
| Working Disc    | 8" & 10"                  |               |
| Speed           | 50-1000 r/min             | Optional      |
| Voltage         | Single phase 220V,50/60Hz | 110V Optional |
| Powder          | 750W                      | 550W Optional |
| Dimension D*W*H | 650×370×310mm             |               |
| Weight          | 49kg                      |               |

### Stand Accessories

| Item              | Quantity | Item                | Quantity |
|-------------------|----------|---------------------|----------|
| 8" Aluminum Plate | 1 pc     | 8" Ring             | 1 pc     |
| Outlet Pipe       | 1 pc     | Electric Cable      | 1 pc     |
| Instruction       | 1 pc     | Qualification Paper | 1 pc     |
| Warranty Card     | 1 pc     | Packing List        | 1 pc     |
| Inlet Pipe        | 1 pc     | Power Fuse          | 2 pcs    |

### Optional Accessories

| Item              | Specification | Item           | Specification |
|-------------------|---------------|----------------|---------------|
| 8" Magnetic Plate | 8"            | Transfer Plate | 8"            |
| Drain Switch      |               |                |               |
